Forecast for Friday 17 Jun 2022

Weather: Cloudy morning with rain, most persistent over Perthshire hills and turning heavier for a time. Drier over eastern Cairngorms and Aberdeenshire hills, extending south to all ranges by early afternoon. Turning much brighter with long sunny spells developing.

Chance of cloud-free hill tops above 800m: 40% improving 90% in afternoon.

Low Cloud and visibility: Misty conditions during morning, especially in southwest of area and poor visibility in persistent rain. Also clouds well down the hills. Good visibility in the north with clouds above some of the tops. Visibility will become very good in all areas during early afternoon with clouds lifting and breaking up.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Note strong to gale force winds on the tops will make for difficult walking conditions. Also drop in temperature later in the day so increasing chill effects.

Forecast for Saturday 18 Jun 2022
Weather: Unseasonably cold, windy day in the hills with bright spells and a few showers, possibly wintry on higher peaks in the morning.

Maximum wind: Gale or severe gale force westerly winds, average speeds on the tops of 40mph and gusts 60 to 70mph.

Chance of cloud-free hill tops above 800m: 80%

Low Cloud and visibility: Mostly very good visibility with occasional clouds about 700 to 800m. Briefly poorer visibility as showers pass by with more extensive cloud cover.

Temperature: **Glens:** 8 Celsius rising to 17 Celsius
At 800m: 4 Celsius rising to 7 Celsius
Freezing level: 1300m rising above the summits.
